

HOW TO BEGIN THE PROCESS OF DONATING YOUR BABY'S UMBILICAL CORD BLOOD TO THE UNIVERSITY OF COLORADO CORD BLOOD BANK

Thank you for your interest in donating your baby's cord blood to our public cord blood bank. We currently collect cord blood on a regular basis at Exempla St. Joseph in Denver. However, we also received support from the Colorado Check-off funds to collect at other Colorado hospitals. If you are delivering at a Colorado hospital other than Exempla St. Joseph and meet the following criteria, visit [BeTheMatch](#) to begin the initial eligibility process for donating cord blood:

1. You are delivering your baby at a Colorado hospital
2. You are currently more than 28 weeks, but less than 34 weeks pregnant.
3. You are not expecting a multiple birth or caesarean section delivery
4. You are generally in good health

Thanks, again, for your interest in donating to our public cord blood bank!
